SUMMARY

Early-stage operator with full P&L ownership experience. Built and scaled operations from zero across multiple ventures - managing revenue, costs, vendors, and growth simultaneously. I thrive as a multi-hat operator in ambiguous startup environments. My track record includes 48% revenue growth via pricing experiments, 212% efficiency gains, and three 0-1 company builds.

For Teero: I thrive as the multi-hat operator who owns the full P&L — three 0-1 company builds, 48% revenue growth, and 212% efficiency gains.
